THE HIGH COST OF GOOD LIVING.

When the high cost of living is under debate it will be well to remember that it is in part the cost of good living. The people, or public officials on their behalf, are insisting on high food standards and naturally higher prices are the result.

A report of the health department of this city shows that 13,000,000 pounds of unwholesome food was confiscated and destroyed during 1913. No one will dispute the propriety of the health officers' action. Bad food ought not to be sold in New York. But it may as well be understood that the people paid for these 13,000,000 pounds just the same.

The shippers or purveyors from whom the seizures were made, and who were the losers in the first instance, may be sure were not out in the long run. The value of the destroyed material was simply spread out thin over the better food that was sold; the consumers paid the price and the dealers' balance sheets were none the worse on December 31.

One consolation remains to the public. It did not buy doctors' and undertakers' bills along with its fruit, milk and meat.—New York Sun.

A man who this year lends his aid to the Progressive cause in county or State is a better friend to minority rule and to the Democratic party than to his own principles.

SUNDAY'S UNIVERSITY WORK.

Billy Sunday's visit to the University of Pennsylvania has aroused such an interest in religion among the students that they have organized to keep the work going; and so they are sending out teams to hold meetings elsewhere in the State. The meetings are of a peculiar character, quite unlike the old revival meetings. For instance they have impersonations, banjo music, sleight-of-hand performances, talks on baseball and athletics, life aims and events, and subjects that young people are likely to listen to eagerly. At the same time a moral and religious import is given to everything that is said and done.

For instance, the speaker on athletics, who is captain of the 1913 baseball team, told of the connection between moral and physical training, and another speaker declared the biggest asset a young man can have toward a successful career is to become a Christian. The idea was to make the young man's everyday thought and experience radiant with religious truth. In no place, in all his wanderings, did the preaching of Billy Sunday work up such a high purpose as it did at the University of Pennsylvania; and yet Billy is so rud; and uncouth, you know.—Ohio State Journal.

AFTER FIVE YEARS

Winthrop Child Was Restored to Health By Vinol.

"Five years ago our little girl had a severe attack of diphtheria which left her subject to bronchitis and stomach trouble. She has been almost constantly under medical treatment. I have tried also two or three remedies containing cod liver oil but found her stomach rebelled against the oil. Reading your description of Vinol I decided to try it and did so with most astonishing results. I cannot begin to tell you how she has improved because you do not know what a little sufferer she was for five years. She has gained ten pounds since she commenced to take Vinol, and the story of what Vinol has done for her is only half told in this letter." Mrs. Adelaide Mulloy, Winthrop, Mass.

Vinol contains all the healing curative properties of cod liver oil, with out the oil, and tonic iron added. That is why it helped this little girl after other remedies had failed.

We ask mothers of weak, sickly children to try Vinol on our offer to give back your money if it fails to help them. J. C. Peor, Druggist, Maysville, P. S.—Our Saxe Salve is truly wonderful for Eczema. We guarantee it.

BIG BURDEN OF PUBLIC OWNERSHIP

Would Mean a Public Debt Amounting to 27 Per Cent of Nation's Wealth.

At present the total public indebtedness of every name and nature in this country is not burdensome, for the amount is approximately \$4,000,000,000 or say 2 1/2 per cent. of the total value of all property in the United States. But did our various forms of government take over all of the Public Utility Companies, as some advocate, the amount of such public indebtedness would be increased to nearly \$45,000,000,000, or to over 27 per cent. of the entire property value of the country.—William J. Clarke in May Aera.

Blessed Hope.
 Dwight Moody.

Hope is the laughter of Faith. Joy sings in the morning—like the lark, but Hope is like the nightingale that sings in the dark. Most anyone can sing in the morning when everything is going well; but Hope sings in the dark, in the mist and fog—looks through the mist and darkness into the clear day. Faith is to work and to trust, but we cannot get on any better without Hope than we can without Faith.

HALL WILL SEAT 8,000.

(Engineering News.)

An immense convention hall with a seating capacity of 8000 has been planned by Egerton Swartwout for the proposed George Washington Memorial at Washington, D. C. Mr. Swartwout's design was awarded the first prize of \$1,500 in a competition to which thirteen architects were invited. The plans call for an auditorium 270 feet long by 200 feet in width, arranged as an ellipse, which, according to the designer is not only the most economical layout for disposition of seats, but also presents the best acoustical properties. The building is a project of the George Washington Memorial Association, which has raised \$500,000 of the \$2,000,000 which will be required for its construction. The government has contributed a site on the Mall, at Washington, provided at least \$1,000,000 can be raised by March 4, 1915.

LUKE McLUKE SAYS.

The New York State Court of Appeals has gone on record as holding that "motherhood is an incident natural to marriage." Well, well! If we had only studied law we might have known this long ago.

The man who is afraid he might do too much is never paid too much.

There are all sorts of people in the world, including the woman who makes funerals her favorite pastime.

Every baby resembles its mother in that it wants a lot of things it can't have.

I may be wrong, but I never believed there was much matter with the man who was cured by a patent medicine.

What has become of the old-fashioned girl who had to be coaxed to play the piano?

We are all attracted by our opposites. That is why a gabby woman leads a dumb mutt who is a good listener.

Nature intended that man should have larger feet than woman. But that was before white shoes were invented.

Having thin arms doesn't keep a girl from wearing elbow length sleeves, because she realizes that a man won't know that it is a habit with her a

 Gentlemen—
 After completing our village at New Holland, Pa., we experimented with some half dozen various brands of paint by dividing our village up into sections of ten houses each and painting each ten with a different brand.
 On one section of ten houses we used Lead and Oil, the other five sections we used paints mostly used in this section, and considered to be the leading brands.
 After eight years we find that the ten cottages covered with "MASTIC PAINT" are in better condition and stand the test better than any of the others, even including Lead and Oil. Will say further that the houses were all of the same architecture, weatherboarded with long leaf yellow pine of the same grade, having same exposure to the sun that is, none of them were partially protected by shade trees, but fully exposed.
 We are well pleased with the results of the "MASTIC PAINT" and can heartily recommend same to any one who is a buyer.

Yours truly,
